TREDT UNION IMPERIAL DEFENCE AUTHORITY

Top Secret – Eyes Only

Code Name: Operation Point Nemo

Classification: SAG Top Secret #L10

Subject: Operation Point Nemo – Strategic Invasion Plan

Date: 17/09/2024

Authorization: Office of the President of Union, Supreme Commander of Union Armed Forces, 3rd in Command and Gov. Gen. of TREDT Trading Company Armed Forces Pvt. Defence Force.

Name(s)(Authorization): Soumya D. Das, Zanyung Ronrei, Hemang Chugh & Ishaan Das.

Authorization Code: DRTH41204

Objective:

The primary objective of **Operation Point Nemo** is to establish full control over the designated zone at **Point Nemo** and neutralise any opposition or external forces in the region. This will involve a coordinated military strike and occupation of the area, ensuring security of the Union's strategic interests and positioning.

Force Composition and Deployment:

1. Personnel:

- **100,000 combat troops** from various divisions of the TREDT Union Army.
- These soldiers will be divided into specialised battalions to cover land, air, and strategic combat operations.

2. Aircraft Support:

- **3,000 aircraft** consisting of bombers, fighter jets, and transport planes.
- Air operations will involve continuous surveillance, tactical bombing runs, and rapid deployment of paratroopers into hostile territory.

3. Armoured Divisions:

- **400 tanks** with heavy artillery, including the latest models of combat tanks for ground invasion and fortification destruction.

4. Long-Range Precision Weaponry:

- **50 Sniper Super Rifles**, capable of ultra-long-range precision targeting for key eliminations of high-value targets and defensive suppression.

5. Strategic Weapons:

- **2 H-Bombs** authorised for potential use under extreme circumstances. Their deployment is reserved strictly under the direct order of the **President of Union** in the event that the objectives of Operation Point Nemo face insurmountable resistance or the mission's success is jeopardised.
-

Operational Phases:

- **Phase 1: Air Supremacy and Reconnaissance**
 - All 3,000 aircraft will launch a coordinated strike to establish air superiority and conduct reconnaissance over Point Nemo. Surveillance drones and paratrooper units will be deployed.
 - **Phase 2: Ground Invasion and Area Securing**
 - The main army force of 100,000 men will advance toward Point Nemo, accompanied by 400 tanks to establish defensive and offensive strongholds.
 - Special forces equipped with sniper rifles will eliminate key threats and targets of strategic importance.
 - **Phase 3: Final Engagement and Securing Strategic Hold**
 - Should resistance continue, high-intensity bombing operations will be authorised. The use of H-Bombs remains a last-resort measure under direct presidential command.
 - **Phase 4: Occupation and Stabilization**
 - After neutralising opposition, ground forces will secure Point Nemo, ensuring no further incursions. Defensive lines will be fortified, and air surveillance will continue indefinitely.
-

Command and Control:

The overall command of **Operation Point Nemo** is delegated to the **Supreme Commander of Union Armed Forces**. The authority to execute critical orders resides with the **Office of the President of Union** under **Emergency Directive 13**.

Any deviation from the outlined plan requires immediate communication with Union High Command.

By Order of:

Supreme Commander of Union Armed Forces
