TREDT UNION

TREDT LEGISLATIVE HOUSE

28th February 2024

TREDT SMP Financial and Marketing System Enhancement Act. 2024

Preamble

Presented by the TREDT SMP Operation Committee;

To the TREDT Legislative House.

Whereas, the TREDT SMP server is a vital platform for community engagement and collaboration within the TREDT network; and

Whereas, enhancing the financial and marketing systems of the TREDT SMP can promote economic growth, improve player experience, and foster a more dynamic and interactive environment; and

Whereas, the implementation of plugins such as EssentialsX Economy can significantly contribute to achieving these objectives by providing essential tools for managing virtual economies and facilitating player-driven markets.

We, the TREDT SMP Operation Committee hereby, Present this Bill before the TREDT Legislative House.

Sections and Articles

Section 1: Definitions:

1.1. TREDT SMP: Refers to the TREDT Survival Multiplayer server, a virtual platform operated by the TREDT Union.

1.2. EssentialsX Economy: A plugin designed to manage in-game currencies, player balances, and economic transactions within the TREDT SMP server.

Section 2: Implementation of Plugins:

2.1. The TREDT SMP Operation Committee is hereby authorized and instructed to integrate the EssentialsX Economy plugin into the TREDT SMP server within thirty (30) days of the passage of this bill.

2.2. The TREDT SMP Operation Committee shall ensure that the integration of the plugins is conducted smoothly and efficiently, minimizing disruption to ongoing gameplay activities and providing necessary guidance and support to players regarding the use of new features.

Section 3: Operational Guidelines:

3.1. Upon integration, the EssentialsX Economy plugin shall be utilized to establish and manage virtual currencies within the TREDT SMP server, including but not limited to coins, tokens, or any other in-game monetary units deemed appropriate by the TREDT SMP Operation Committee.

3.2. The TREDT SMP Operation Committee shall establish rules, regulations, and guidelines governing the functioning of the EssentialsX Economy and StockMarket plugins, ensuring fair and transparent economic interactions among players and promoting healthy market dynamics within the TREDT SMP server.

Section 4: Reporting and Evaluation:

4.1. The TREDT SMP Operation Committee shall provide monthly reports to the TREDT Union's Finance Minister regarding the implementation and performance of the EssentialsX Economy plugin within the TREDT SMP server.

4.2. The TREDT Legislative House reserves the right to conduct periodic evaluations and assessments of the financial and marketing systems of the TREDT SMP server, including but not limited to the effectiveness of the integrated plugins and their impact on player engagement and satisfaction.

Section 5: Enactment:

5.1. This bill shall take effect immediately upon passage by the TREDT Legislative House and approval by the President of Union.

5.2. All provisions of this bill shall be subject to review, amendment, or repeal by the TREDT Legislative House as deemed necessary for the continued improvement and enhancement of the TREDT SMP server.

Approvals (No Signatures Required)

Chairman of TREDT Legislative House –

President of Union –
